Can't delete the first word

Can enter Greek or a transcription, and it will offer suggestions

followed by a word...

Arrow and box for the next word to add are grayed out

These cards should maybe be outlined in whatever color is 1) used to highlight matches in the results 2) used to distinguish them from other sequences (see below)

Add another word or sequence to find in the same sentence

If there are multiple sequences, each is outlined in a different color (e.g. the first is blue, the second is orange...)

SEARCH >>

Maybe add some kind of floating feedback button?
